

[4d baby scan](#) for pregnant women

Baby moments is a private pregnancy clinic both owned and run by professional, dedicated sonographers who thrive in the 4D [baby scan](#), 4D ultrasound and pregnancy services that they offer to pregnant women and their families. We offer 4D/3D scan services. These scans are a once in a lifetime opportunity to spend quality time viewing your baby move, yawn, suck his/her thumb and sometimes smile. All this will truly touch your heart. We use state-of-the-art 2013 scanning equipment, GE Voluson-HDlive.

HDlive is an extraordinary rendering method generating amazingly realistic images of the human fetus and transfers your baby's images onto our large plasma TV screen, for you and your family to view. We are based in Didcot we see pregnant women from Oxford, Swindon, Berkshire and the surrounding areas.

Our pregnancy scans: 2D sexing scan, 2D early pregnancy scan, 3D baby Scan, 4D baby Scan, gender scan, viability scan, 3D Scan and HD Live scan. [4d scan at 30 weeks](#)
